GOOD FITLER GOOD LIFE

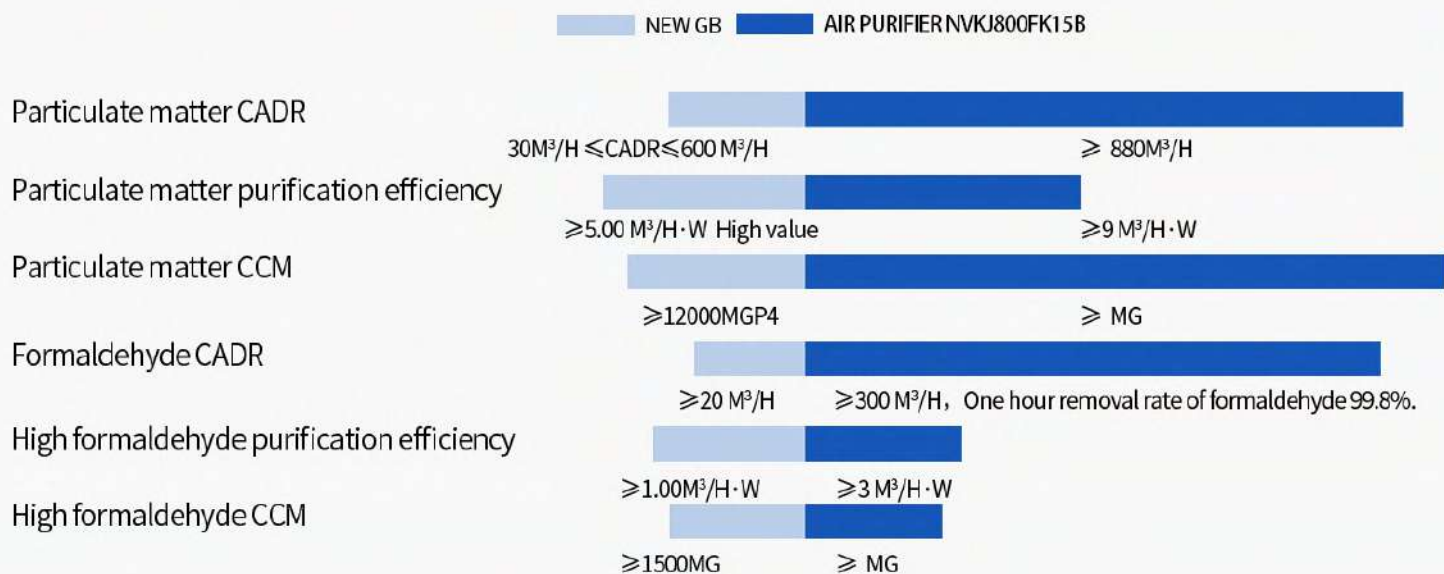

H12 high-efficiency composite clamp carbon cloth filter

Effective adsorption of formaldehyde,
minimum blocking particles 0.02 microns
(100 times smaller than the upper limit of PM2.5).

THREE HIGHS AND ONE LOW LEADS THE NEW NATIONAL STANDARD

New National Standard VS Air Purifier NVKJ800FK15B

New GB tell us, a truly effective air purifier=high CADR + high CCM + low noise

QUIET AND SOFT

BREATHE NATURALLY

Releases 10 million/cm³ high-concentration negative ions, Prevention of disease, spread of bacteria
Negative ions can be purified, dusted, deodorized, and sterilized for optimum treatment to prevent diseases and spread bacteria.

A central image of a white, cylindrical air purifier with a digital display at the top showing "888" and "88". The device is surrounded by green leaves and bubbles containing "O₂". Six callout boxes with icons and text describe its features:

- sterilization**: Icon of green bacteria.
- remove dust**: Icon of a grey dust particle.
- adsorbs bad smells**: Icon of a woman covering her nose.
- purification**: Icon of a water filter.
- formaldehyde**: Icon of a red virus-like particle.
- hair**: Icon of a brown hair curl.

ACCURATE DETECTION INTUITIVE DIGITAL DISPLAY

PM1.0 real-time display

Japan imported SHINYEI KAISHA particle sensor

Power on stable operation time is 6 seconds,
response time is 1 second, monitor particle size
down to 0.3 micron

TRIPLE PROTECTION SAFE AND RELIABLE

· Open the cover and power off
the machine power off automatically when it's cover is opened

· Child lock
prevent children from accidentally touching, causing security risks

· anti fall off switch
dump more than 15°, power off protection

TOUCH SCREEN DESIGN

[Clean up between your fingers]

AIR POLLUTION INDICATOR

Visual display of air quality

Air quality: excellent
interface colors: blue

Air quality: good
interface colors: green

Air quality: fair
interface colors: yellow

Air quality: poor
interface colors: red

PRODUCT PARAMETERS

Product Name: Air Purifier	Model: NVKJ800FK15B	Particulate matter CADR: 800m ³ /h	Working mode: Intelligent purification
Accumulated particulate matter purification level: P4	Negative ion concentration: >20 × 10 ⁶ ions/cm ³	Particle purification energy efficiency: ≥ 10.66	
Rated voltage: AC 220V/50Hz	Gaseous pollutants CADR: 300m ³ /h or more	Rated power: 75W	Standby power: ≤ 2W
Accumulation of gaseous pollutants purification level: F4	Gaseous Pollutant Purifying Energy Efficiency: High Efficiency		Power Cord Length: 2 meters
Noise (sleep profile): 20dB (A)	Product size (length, width, height): 400 × 400 × 665mm	Packing size (length, width, height): 491 × 491 × 763mm	
Anion concentration: 10 million/cm ³	Net weight: 14.0Kg	Applicable area: 56~96m ²	Noise (highest grade): 66dB (A)
